

Effective Strategies for Discharge Planning of Homeless Patients

A 3-Hour Interactive Specialized Training and Education Workshop

Provides hospital staff important information and the necessary skills and resources needed to initiate the first steps in a comprehensive “rehabilitative” process for effectively discharging homeless patients.

Program Objectives:

- Demonstrate an understanding of the discharge planning role, as well as the legal and regulatory responsibilities
- Acquire an understanding of local community resources and the social services system
- Express an understanding that assessment is a continuous, ongoing process
- Formulate discharge criteria based upon the assessment information

Who Should Attend?

Social workers, case workers, case managers, discharge planners, emergency department staff and others serving homeless patients.

Location: At your site.

If you are interested in preparing your staff to assist homeless patients at discharge contact Mark Casanova at 213.739.1627 or email him at mcasanova@hhcla.org for more information and a fee schedule.
